HEALTH, SAFETY AND ENVIRONMENTAL POLICY

ICA LOGISTICS LTD employs on retainer-ship a health and safety consultant. We offer bimonthly safety 'drills to staffs and our site supervisors. Safety briefs and debriefs are given every morning and evening 'during every fieldwork. For every fieldwork a safety officer is attached to the team who ensures that all jsafety protocols as prescribed by all internationally accepted safety rules are strictly observed.

In the case of any minor or major accident, the safety officer (SO) is on the scene commander. This is how ICA LOGISTICS LTD reflects its contingency plan for accidents and fire.

He (SO) ensures that all personnel (Staff, consultants, Local Labour Work Force etc) all receive (adequate safety training for the job to be performed. He together with all teams reviews all jobs before (commencements to adequately identify all potentially dangerous conditions.

1. Personnel shall keep the working area clean and orderly. No tools, equipments or any other items shall be lying on walking surfaces where they present tripping hazards.
2. Spills and slippery areas shall be promptly cleaned.
3. All working areas shall be adequately provided with fire extinguishers and muster points delineated all staff provided gears and equipment.
4. All equipments shall be operated with safety limits stipulated by manufacturers.
5. Speed and safety handling limits shall be strictly observed.
6. Where an injury occurs immediate report is to be made to (SO) and first aid administered before evacuation to a nearest medical center. An inventory of medical centers nearest to the area of operations shall be available at each location.
7. All accidents to be reported to head Office, the head Office in turn shall notify the clients immediately.
8. Where casualty is involved, same reporting procedure is maintained.

QUALITY CONTROL AND ASSURANCE PROCESS

ICA LOGISTICS LTD adopts a quality system that emphasis safety, efficiency and cost - effectiveness in the execution of its services and projects.

Once a job is commenced a monitoring system is put in place till final testing and handover. At various stages of execution, audits are carried out to ensure compliance with laid down specifications.

A unit dedicated to quality assurance is headed by a Senior Level Officer and all jobs completed in line with our procedures are certificated accordingly.

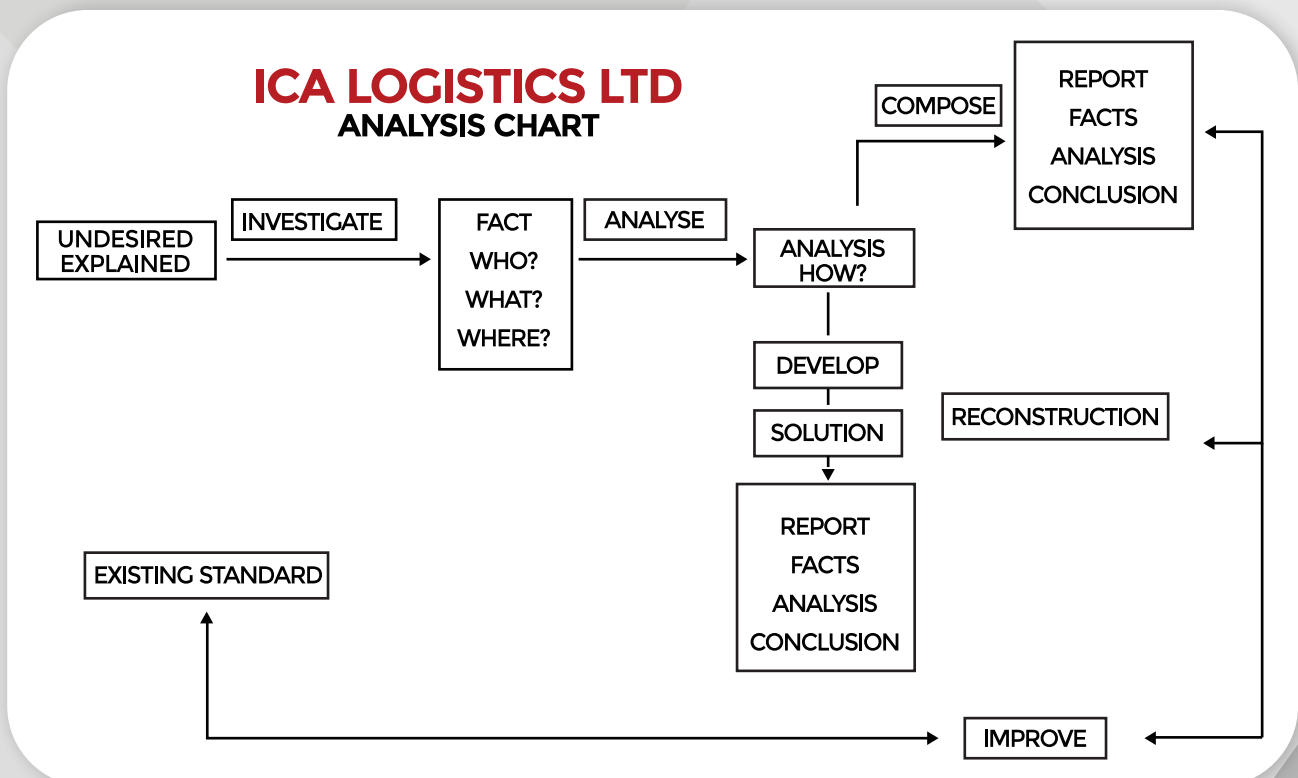

I. Quality Control Procedure

ICA LOGISTICS LTD maintains a quality control procedure in line with internationally acceptable standards. Our system is summarized

- Initial Conception of Job
- Design of Feasibility
- Drawn - Up Programme of Action
- Mobilization of Men and resources to Sight
- Practical commencement of Job
- Periodic Audit and Certification
- Job Handover
- Post-Job Handover follow-up
- Warrantee

Each of these stages is properly audited and if there is a short-coming against the initial requirement of the project, the job has to be recommenced. Final audit is carried out when job completed. There is also a Post-contract execution follow-up

ICA LOGISTICS LIMITED

QUALITY POLICY STATEMENT

We at ICA Logistics Limited are committed to the provision of high quality **Freight Forwarding and Shipping services** to ensure the satisfaction of all the requirements of our clients. This achievement will result in securing efficiency, a strong customer focus and enhancement of long-term sustainability and profitability within our Quality Management System (QMS)

The Management Team will show leadership and commitment and bear the responsibility for establishing, implementing, integrating and maintaining the QMS.

We undertake to ensure sufficient resources are made available as well as effective communication, employee engagement, practical examples and relevant training that reaffirms that Quality is the aim of all members of ICA Logistics Limited.

With proper guidance and support, each employee will have a proper understanding of the importance of the Quality System function, their responsibility to contribute to its effectiveness and its direct relevance to the success of our QMS.

Equally, every employee is responsible for, and will be trained to perform the duties required by his or her specific role.

ICA Logistics Limited has a Policy of promoting improvement and setting of Quality Objectives in line with the framework laid down within ISO 9001:2015 Standard. These objectives will address the risks and opportunities within our QMS as determined by Top Management.

The Quality System will be monitored, measured, evaluated and enhanced regularly under the Top Management's ultimate responsibility. It shall also be made available for all employee and interested parties.
